

ENGINEERING FIRM
OF THE YEAR

R.M. Towill Corporation

N AIOP HAWAII IS PLEASED TO RECOGNIZE R. M. TOWILL CORPORATION (RMTc) FOR ITS WIDE-RANGING CONTRIBUTIONS TO HAWAII'S INFRASTRUCTURE AND BUILT ENVIRONMENT. DRIVEN BY A MISSION TO PROVIDE INNOVATIVE AND SUSTAINABLE SOLUTIONS TO MEET THE UNIQUE CHALLENGES OF OUR ISLAND COMMUNITIES, RMTc IS ONE OF THE OLDEST AND LARGEST KAMAAINA ENGINEERING FIRMS IN THE STATE WITH ROOTS DATING BACK TO 1930.

Over its 95-year history, RMTc has completed more than 20,000 projects in Hawaii and throughout the Pacific Rim, providing integrated professional services in civil and wastewater engineering, surveying and mapping, planning and permitting, and construction management. The company's current work includes projects for county, state, and federal agencies; Hawaii's major land developers, including

Avalon, Brookfield, Castle & Cooke, DR Horton, Gentry, Haseko, Hunt Companies, James Campbell Company, Lanihau, Kamehameha Schools, Kobayashi Group, Pulama Lanai, Stanford Carr and WH Shipman; as well as top local architectural firms, contractors, and real estate brokers.

RMTc's enduring success is attributed to the company's good relationships in the community, trustworthy reputation, high quality work, and exceptional client service, explains Greg Hiyakumoto, who has spent his entire career at RMTc and has served as its president for the past

3

12 years. “We are truly grateful to our clients for the opportunity to serve Hawaii’s best,” he says. “Our focus has always been on bringing success to our clients, maintaining a genuine commitment to doing what is right, staying humble, and offering steadfast support through every situation—big or small.”

As a Hawaii-owned and operated company, RMTTC also strives to remain connected and involved in the local community through its philosophy of “Sharing, Caring, and Giving.” Staff members contribute their time and talent to a

wide array of professional associations, non-profit groups, and social service clubs that support community needs and wellbeing. Additionally, the R. M. Towill Foundation, a charitable non-profit entity incorporated in 2004, provides grants to Hawaii public schools and contributions for literary, educational, historical, cultural, and scientific purposes. Together, RMTTC and its foundation have donated more than \$3 million to various nonprofit and educational institutions over the past decade.

The company’s 95-year legacy of success is a testament to the leadership and commitment of those who came before me,” said Hiyakumoto. “They were all remarkable, visionary leaders who

navigated the company in very challenging times and skillfully adapted to the evolving business and social landscapes of their eras.”

Today, the company builds upon that legacy by prioritizing humility and integrity over short-term gains, Hiyakumoto says. “We believe that true success comes from contributing quietly and meaningfully to our community and in supporting our people. We remain committed to carrying this philosophy into the future.”
